NOT FOR ENTRY ON THE RECORD

Serial No.: 10/750,432   Attorney Case: 13489-56

For: HYBRID SPREAD SPECTRUM RADIO SYSTEM

To: Examiner Kevin Michael Burd
Fax: 571-273-3008

From: Karl Horlander, (Reg. No. 63, 147)
Phone: 317-682-2117

Telephonic Interview on July 16, 2009 at 2:00PM (EDT)

Dear Examiner Cordero:

Pursuant to your request, below is a proposed agenda for our telephonic interview, scheduled for tomorrow, July 16, 2009, at 2:00PM.

I.   **Claim 107**

    a. "generating a spread spectrum signal that includes a plurality of sub-sets of chips, <u>each of the sub-sets of chips including at least three chips</u>, for each of the data bits to be transmitted based upon the first stream of pseudo-random code words."

    b. "modulating each of the carrier signals with a respective sub-set of chips from among the plurality of sub-sets of chips to generate a fast frequency hopped spread spectrum signal."

II.   **Claim 76-80 in view of Jones**

III.   **Claim 75 in view of Jones**

IV.   **Claim 107 in view of Jones**

V.   **Claim 82**

    a. "an amplitude control circuit in communication with the pseudo-random code generator and the amplification circuit, the amplitude control

circuit configured to dither the amplification control signal based upon the third stream of pseudo-random code words."

b. **Claim 110 and 121**

    i. "dithering an amplitude of the fast frequency hopped spread spectrum signal as a function of the third stream of pseudo-random code words."

VI.   **Discuss Alamouti et al, U.S. 6,853,629**
